- AA Program

JITU GANDHARE

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with expertise in JavaScript and the MERN stack. Proficient in designing efficient server-side APIs and maintaining seamless frontend and backend integration. Strong ability to learn new technologies rapidly, including leveraging Generative AI, enhancing development workflows, and ensuring software excellence.

PROJECTS

1. Insta-fista | ⊕ | ⊙
JavaScript | React | Redux | Git | Node.js | Express.js | MongoDB | RESTful APIs

- Developed a full-stack Instagram clone using the MERN stack, leveraging JavaScript, React, Redux, Node.js, Express.js, and MongoDB.
- Implemented secure user authentication, customizable profiles, and real-time chat for enhanced user interaction.
- Designed efficient server-side APIs and integrated them with frontend components for seamless user experiences.
- Optimized MongoDB queries for fast and scalable data access, accommodating high user traffic.
- Utilized Git for version control, ensuring robust and collaborative development.

2. Salesway Dashboard | ⊕ | ⊙
React | Git | Node.js | Express.js | RESTful APIs | Reactchart.js | Talwind Css

- Developed a comprehensive sales analytics dashboard using React, Node.js, Express.js, and RESTful APIs.
- Created real-time data visualizations with Reactchart.js for insightful sales metrics comparison.
- Implemented user-friendly navigation and performance scoring to enhance user engagement and platform interactivity.
- Designed backend APIs to fetch and process large datasets, improving data analysis and decision-making.
- Utilized Git for version control to maintain code integrity and facilitate collaborative development.

3. OnFlick | ⊕ | ⊙
Redux | React | Git | Chakra UI | Json Server

- Developed an e-commerce platform using React.js, Redux, and Chakra UI for a modern shopping experience.
- Implemented loading indicators and UI enhancements to boost user interaction and satisfaction.
- Designed and developed essential components like the payment page and footer for seamless navigation.
- Wrote efficient JSON server operations to support real-time data updates and transactions.
- Collaborated with a team using Git for version control, ensuring high code quality and synchronization.
